Hey Gary,

I'd like to refer you to Marie Rumsey, Vice President for Policy at the Central City Association, for assessment of the linkage fee. As the premier business policy and advocacy organization for DTLA, they were very involved in shaping the policy, so probably know it best.

If TRU Development is not yet a member, I'd highly recommend it, not only for their policy and advocacy work, but also for the best networking and programming related to the real estate industry. As a new player in the Downtown market, it's a great way for you guys to get connected. I'm copying Nhien Lasky, their director of business development as well.

Thanks.

Nick

Hello Elan and Nick,

What are your impressions and opinions regarding the linkage fees as they pertain to affordable housing?

Thanks and Happy Holidays!
